**In every home there are products that need special care.
You'll recognize them by these warning signs.**

When you use these hazardous products, you use them carefully. When you don't need them any more, you should dispose of them just as carefully. That's what Household Hazardous Waste Day

is all about – an opportunity to clear potentially dangerous waste out of your home and protect our environment - water, land and air - at the same time. If hazardous products are thrown in the regular

garbage, they can injure sanitation workers and cause long-term environmental problems. Bring your Household Hazardous Waste to the special depot, and it will be dealt with by experts, at no cost to you.

ALSO ACCEPTED: Sharps (Hypodermic Needles)

NOT ACCEPTED: PCB's, commercial, infectious or radioactive wastes, tires

2010 Household Hazardous Waste Depot Schedule

March 27	April 24	May 29
June 26	September 25	October 30
(The last Saturday of the month.)		
9:00 a.m. - 2:00 p.m.
